**October** - *How to Stop Time* by Matt Haig

Tom Hazard is 439 years old! He has a rare condition called anageria, which means he ages but very, very slowly. To his ignorant, superstitious neighbors in sixteenth-century Suffolk, he appears not to age at all; this being clearly the devil’s work, his mother is killed for being a witch. He then moves to London, where he meets Rose and, falling in love, they marry and have a daughter, Marion, but must move constantly before their neighbors begin to notice Tom’s condition. Finally, to protect them, he must leave them and, for centuries, refuses to fall in love. But the heart has its reasons, and now, a history teacher in London, he falls in love, a fact he must keep from the vaguely sinister Henrich, head of the Albatross Society, which exists to protect albas, i.e., people like Tom. But, for various reasons, Tom’s life is once again at risk. Haig’s plot is obviously complex, but a marvel of invention it is seamlessly presented, telling an absolutely compelling story.

Red Tail Captured, Red Tail Free: Memoirs of a Tuskegee Airman and POW

Alexander Jefferson was one of 32 Tuskegee Airmen from the 332nd Fighter Group to be shot down defending a country that considered them to be second-class citizens. Jefferson trained at Tuskegee Institute and joined the flying P51s with their legendary and feared red tails. He was shot down over France and when captured, spent the balance of the war in Luftwaffe prison camps in Germany. In this deeply personal book, Jefferson writes as a genuine American hero and patriot. It’s an unvarnished look at life behind barbed wire and what it meant to be an African-American pilot in enemy hands. It’s also a look at race and democracy in America through the eyes of a patriot who fought to protect the promise of freedom. Books will be available for purchase and signing.
